Co-op Availability: January – June 2027

EDUCATION

Northeastern University, Boston, MA *Expected May 2029*
Candidate for Bachelor of Science | Major: Data Science and Business Administration
Concentrations: International Business and Supply Chain Management
GPA: 3.8/4.0 | John Martinson Honors Program | Dean's List
Relevant Coursework: Introduction to Databases (CS 3200), Advanced Programming with Data (DS 3500), Mathematical Foundations of AI (DS 3000), Intermediate Programming with Data (DS 2500), Business Statistics (MGSC 2301)
Activities: DATA Club, AI Northeastern, NU Votes Ambassador, NU|ACES, Lead360 Blueprint
The American College of Greece, Athens, Greece *May – June 2026*
Study Abroad: Project Management, Profit Analysis for Managers | GPA: 4.0/4.0

COMPUTER KNOWLEDGE

Languages: Python, SQL, TypeScript, JavaScript, Java, HTML, CSS
Data & Analytics: Pandas, NumPy, Matplotlib, Recharts, SPSS, REST APIs, Monte Carlo Simulation, Regression Analysis, EDA
Web Development: React, Next.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Vercel
Tools: Git, GitHub Actions, Vitest, Microsoft Excel, Microsoft Project, SEC EDGAR

PROJECT EXPERIENCE

Instagram Wrapped | Developer | Next.js, TypeScript, JSZip, Recharts, Supabase *June 2026 – Present*

- Built a privacy-first analyzer that parses Instagram export archives in-browser, modeling a social graph and scoring relationship strength and privacy exposure
- Visualized activity through day-by-hour heatmaps and monthly timelines in Recharts, with CSV export and Supabase cloud sync

CardEdge | Developer | Next.js, TypeScript, Supabase, Vitest *June 2026 – Present*

- Engineered a Monte Carlo equity simulator in cancellable Web Workers, reporting 95% confidence intervals across three precision modes
- Built account sync on Supabase Postgres with row-level security, enforcing quality through Vitest coverage gates in a GitHub Actions pipeline

Banking Fraud & Corporate Misconduct | DS 2500 Capstone | Python, Pandas, REST APIs, Matplotlib *Spring 2026*

- Collected and cleaned roughly 35,000 consumer complaints through the CFPB API, building a pipeline from paginated JSON responses to analysis-ready datasets
- Tested whether federal enforcement actions reduced harmful complaint patterns at major banks, splitting analysis across a four-person team and presenting findings in a written report

NFL Salary Performance Dashboard | DATA Club Bootcamp | Python, Machine Learning, Data Visualization *Spring 2026*

- Analyzed ten seasons of NFL salary and performance data (2013–2022) to model how roster spending relates to on-field results
- Built an interactive dashboard surfacing model outputs and performance metrics with a four-person team in a shared GitHub repository

WORK EXPERIENCE

Certified Soccer Referee | Massachusetts Youth Soccer | Weymouth, MA *September 2019 – May 2025*

- Officiated several hundred recreational, travel, and club matches across all age divisions
- Managed matches independently, enforcing rules and resolving conflicts among players and coaches under time pressure

Youth Basketball Coach | Milford Biddy Basketball | Milford, MA *November 2024 – February 2025*

- Coached a 7th and 8th grade team of 12 athletes, leading practices and developing individual player skills

Product Engineering Intern | Peak Innovations LLC | Remote *September – December 2024*

- Led CAD development for a redesigned lacrosse helmet prototype in a four-person consulting team
- Conducted product research and design reviews, presenting final recommendations directly to the company founder

INTERESTS

Languages: Telugu (native), Spanish, Greek. **Interests:** sports analytics, basketball, tennis (four-year varsity), travel
